

ふたり エッチ

PART.188 Visit to the aquarium

Sea animals
having sex... is
thrilling wasn't it!

It's said that blue
whales repeatedly
bump into each
other during
copulation...

Makoto-san
wants to take
four days off in
the summer.

SOON,
YOU'LL BE ON
VACATION!

I WANT TO
GO TO THE
AQUARIUM!

FIRST A
LOVE HQ...

OH,
YEAH...

YOU GOT AN
IDEA OF WHERE
WE COULD GO
TO?

So first, they go
to the aquarium,
and then they
stay at a hotel
with a swimming
pool...

THEN WE GO
SWIMMING!

AND THEN
A LOVE
HQ...

AND THEN
A...

ポ
ッ

Summer
vacation...

WATCH OUT
FOR YOUR
HEAD!

AAAA!

WOW,
AWESOME!!

RIGHT.

IT'S THE
FIRST TIME
WE'VE BEEN
TO AN
AQUARIUM!

The
aquarium...

水族館
AQUAS

HOW,
AMAZING!

THE FISH
LOOK
FUNNY!

For some reason,
"romantic" is a
foreign word.

ISN'T IT
ROMANTIC
HERE?

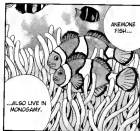

AND LATER, I
GET KIRA-SAN
AS THE MAIN
DEBIT

...SOME TIME
TOGETHER!

IT'S GREAT
THAT WE CAN
SPEND...

Everyone fish attack and drive away their same-sex fellows, when they get too close.

Male seahorse fish change into female seahorse fish when there are not enough of them.

There are a lot of fishes like sharks that copulate. The male scissor organ of a certain shark species has a hook-shaped appendix that prevents slipping from the female genital. Sounds painful!

DO YOU
ALWAYS HAVE
TO THINK OF
THOSE
THINGS?

I'M
WONDERING
HOW IT LOOKS
LIKE!

DOLPHINS ARE
MAMMALS. IT
MEANS THEY
ALSO COPULATE
LIKE US.

Now she's
serious as well

ALTHOUGH
I'M ALSO
INTERESTED..

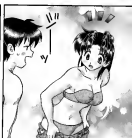

IN THE
AFTERNOON,
LET'S GO
SWIMMING.

IT WAS
FUN!

ふたりエッチ

Ah...

YOUR
HAND, YOU
PERVERT!!

WOW, I
WOULDN'T HAVE
EXPECTED
THIS!

...MAY I
TOUCH YOU IN
THE WATER?

AT THE
MOMENT IT'S
LIMP...

#311

HEHE!

COME!

?

I WANT TO
HAVE SEX IN THE
WATER, LIKE THE
DOLPHIN DO IT...

We got some
ideas...

One theory states that the "songs" from humpback whales are love songs from the male whales for the female ones!

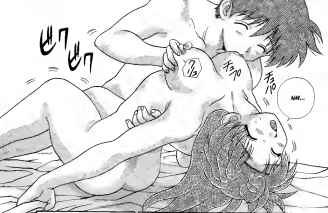

They hit their partner slightly with their tails, embrace them with their pectoral fins, bump into each other and do some heavy water races through the water...

Love-making for dolphins and whales.

The time duration of the copulation is extremely short and lasts for ten seconds at most. This short-time copulation is performed several times in a row.

The copulation of the dolphins is performed while they swim slowly and in a parallel form...

The bottlenose dolphins during copulation

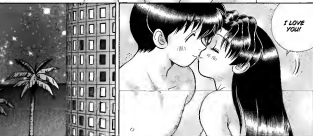

セー

セー

セー

AAAH!!

セー

The worst idea, they
also enjoy the
summer to the
fullest...

MAKOTO-SAN

I GOT A
HEAVY
SUNBURN!

CUCK!

For the last few
days of their
vacation, they
couldn't do much...

BUT I WANT
TO GO TO A
LOVE HOTEL...

WELL
THEN, NO
SEX...
